

Product compatibility between VTech and Snom SIP phones

This technical bulletin provides a quick reference chart to show which products are compatible with each other since VTech has transitioned its SIP products to the Snom brand.

SIP DECT Phones

BASE Product	Accessories:	VDP651	VDP658	VSP605	M10/R	M18	M1
VTech VDP650	Pairing	yes	yes	yes	yes	yes	yes
	FW upgrade	VDP651	VDP658	N/A	VDP651	VDP658	N/A
Snom M100 KLE	Pairing	yes	yes	yes	yes	yes	yes
	FW upgrade	M10	M18	N/A	M10	M18	N/A

Note: The FW upgrade indicates which firmware image file is used to update via standard SUOTA method. Ex. Snom M100 uses the M18 upgrade file to perform a SUOTA upgrade on a VDP658 that is paired to it.

SIP Conference Phones

BASE Product	Accessories:	VCS850	C52-SP
VTech VCS752	Pairing	yes	yes
